TOOLS : Visual studio,Pycharm

EXPERIENCE

Luminar Technolab

Python Fullstack Intern

FEB 2024 - Present

Learning And Doing Internship at Luminar Technolab,Kochi

PROJECTS

E-commerce Website Project

Created a comprehensive e-commerce platform using Django, featuring a wide array of products such as groceries, clothing, cosmetics, and shoes.Integrated Razorpay for smooth online transactions.

Key Features:

User Authentication: Secure sign-up and login system.

Product Catalog: Dynamic, searchable catalog with detailed product descriptions.

Shopping Cart: Real-time updates for adding, modifying, and removing items.

Event Management System

Using the Django framework, I developed a dynamic website for an event management company that allowed customers to browse and book a variety of event management services. I also integrated secure online payments with Razorpay.

Key Features:

User Authentication: Secure registration and login system for users.

Event Registration: User-friendly registration process with confirmation emails.

Analytics and Reporting: Track attendance and generate performance reports.

EDUCATION & CERTIFICATIONS

B.tech in Electronics and Communication Engineering (MG university 2013-17)
